SKILLS

- Languages: Python, JavaScript, SQL
- Frameworks: Django, DRF, FastAPI, React, HTML5, CSS3, Tailwind CSS
- Databases: PostgreSQL, MySQL, Redis, ChromaDB
- Tools & Cloud: Docker, Celery, Git, GitHub, GitHub Actions (CI/CD), REST APIs, JWT, Google Cloud Run, Vercel, Render, Postman, VS Code, Gemini API, RAG

WORK EXPERIENCE

Verizon

Engineer - II Software Development

Apr 2022 - Jan 2025

- Developed enterprise data integration solutions using K2View Fabric, SQL, and Python.
- Built and optimized data pipelines, transformations, and microservice-based workflows.
- Improved application performance through SQL query optimization and reusable backend components.
- Automated development tasks using Python, improving development efficiency.

PROJECTS

FlowBoard – Project Management Platform

- Built a full-stack project management platform with workspaces, projects, tasks, JWT authentication, and role-based access control (RBAC).
- Implemented REST APIs, Redis caching, Celery background jobs, Docker-based deployment, and CI/CD for scalable cloud deployment.
- Live: <https://flow-board-beta-drab.vercel.app/>

VerifyAI – AI-Powered Scam Detection

- Developed an AI-powered web application to detect scam and phishing attempts from text and images using Google Gemini API.
- Generated structured risk analysis reports with image processing and downloadable results.
- Live: <https://verifyai-1ajf.onrender.com>

AskMyPDF – AI PDF Question Answering

- Built a Retrieval-Augmented Generation (RAG) application to answer questions from multiple PDF documents using semantic search.
- Implemented document embeddings, vector search, PDF processing, and source attribution for accurate AI responses.
- Live: <https://askmypdf-b0oa.onrender.com>

EDUCATION

Bhoj Reddy Engineering College for Women(JNTU Hyderabad), BTECH in CSE Sept 2017 - July 2021

CERTIFICATIONS

- Google Cloud Skills Boost – App Engine • Claude 101 (Anthropic) • Python Bootcamp • Django for Python Developers
